

## Do You Want To Purchase Back 2 School Kits For Your Customers, Employees, Community...

Dear Currency Exchange Owner/Store Manager:

I know this is a challenging time for many of you and that your businesses have been impacted by the unfortunate circumstances of the past few months. I also want to reiterate how much we appreciate your participating in this year's canning program to raise money for us. We too have lost a significant amount of revenue but we are determined to find new sources of financial support to make sure we can put school supplies into the hands of as many kids as we can this year.

If you are interested and able to purchase Back 2 School kits, whether it's for your customers, employees, or the community at large, you can order them through this link: <https://forms.gle/gCGD3gi8KLJx74nJ8> Typically, it takes about 3-4 weeks for delivery. If you are placing a small order (less than 100 kits), we most likely have them available in our offices for immediate pickup.

Also, you will happy to know that any kit purchase you make helps us with our Western Union Foundation grant, which could be worth up to **\$100,000** this year!

If you have any questions, please let me know.
